NEW NEWS

The Greene trails will be opening May 15th. The Turner trails are open if your looking for a place to ride. Autumn and I will not be attending because we have a baseball game in Canton.

LAST MEETING

The first meeting of the 2010 season started out with a poof. We found out that the VFW changed the locks on the hall, which forced us to have the meeting out in the parking lot. Jamie started by letting everyone know that we needed a president, vice-president and a trailmaster. Autumn volunteered to do the treasury duties again and suggested that she be the Vice-president because she handles all of the club paperwork. Josh

volunteered to be the trailmaster for this season. Mike informed everyone earlier, before the meeting that he had sold his ATV and would not even be a member of the club. Thanks Mike for all of your years of help. You have been invaluable and filling your position will be a challenge.

Autumn then took the memberships of the people who made it to the meeting and then talked about upcoming rides. Autumn then took care of the financial matters and spoke some more about grant money that we got from last year.
